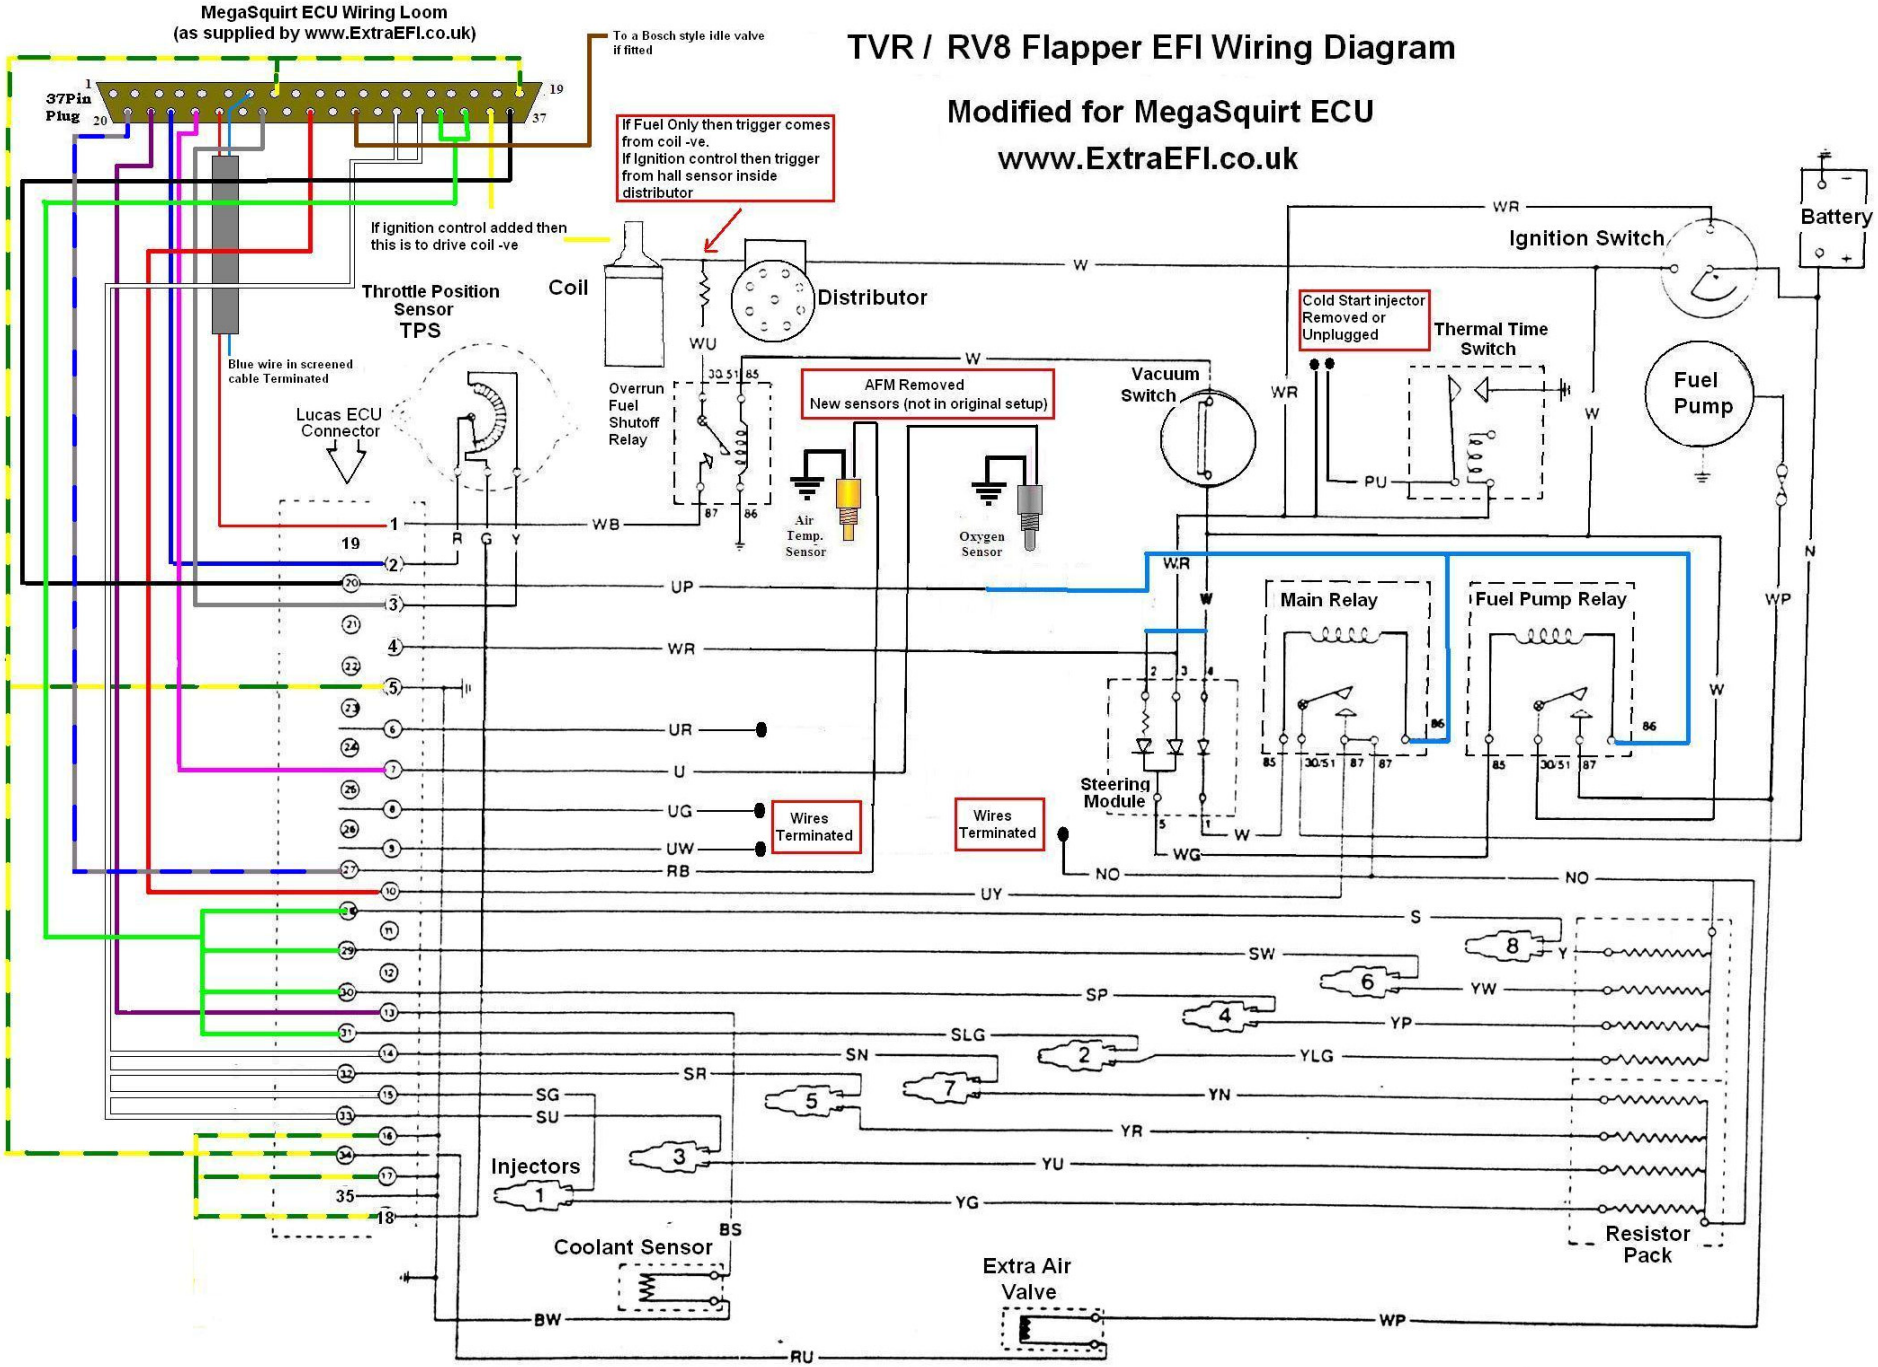
TVR / RV8 Flapper EFI Wiring Diagram

Modified for MegaSquirt ECU

www.ExtraEFI.co.uk



Lucas
Cable Colour Key

B - Black	Y - Yellow
U - Blue	S - Slate
N - Brown	K - Pink
G - Green	LG - Light Green
O - Orange	P - Purple
R - Red	W - White

Mods to Loom shown in **BLUE**

Remove grounds from Fuel Pump Relay and Main Relay (terminal 86)

Wire these terminals back to the fuel pump relay output of the MS ECU (Lucas pin 20 MegaSquirt Pin 37)

Connect pin 2 to Pin 4 of the Steering Module (Remove Blue/Purple wire as this is now used for terminal 86 of the relays)
